

D-SITE

STOP OVERFLOWING SEWERS

Managing Your Collection System is Easier with ADS® D-Site Solutions

Stop worrying about budgets and monitoring equipment and start responding to problems faster and smarter. D-Site is ADS's level monitoring service for providing accurate and timely measurement within your collection system. Intelligent alarms warn you before an overflow occurs so you can respond quickly. Reliable data empowers you to analyze your collection system performance and plan for the future wisely. ADS owns and maintains the equipment so you have more time to focus on other tasks. All of this for a low monthly price.

- Level Monitor
- Online Data Delivery
- Maintenance
- Installation Equipment
- Configuration
