

ADS® Announces New Location in Vancouver, Canada

7/13/18 – Vancouver, British Columbia, Canada. **ADS Environmental Technologies, Inc.**, a wholly-owned subsidiary of [ADS LLC](#)® and the leader in providing comprehensive solutions in full-service sewer flow, level, and rainfall monitoring and data management, announces the opening of its new office in Vancouver, Canada. At ADS we always are striving to better serve our customers. The expansion of the company to Vancouver will allow ADS to more efficiently service our existing wastewater customers and become even more responsive as our business continues to grow. The opening of this new office demonstrates our commitment to our customers, while further establishing our presence in the metropolitan Vancouver area. ADS is also committed to serving our communities, and will expand its employee base by hiring many local, highly-skilled collection system professionals.

Hal Kimbrough, General Manager of ADS LLC, *states “ADS has worked with wastewater utilities in Metro Vancouver for many years out of our Seattle, Washington office. The opening of a permanent office in the area is a big step of us. It is one of two new offices to be opened by ADS Environmental Technologies, a newly registered Canadian corporation. We are committed to investment in British Columbia built around a talented group of local employees who have start with a wealth of experience with our company. This move will draw us closer to the communities we serve and allow us to be more responsive to local needs.”*

About ADS LLC

ADS LLC is a leading technology and service provider and a reliable source of knowledge to the global wastewater collection system industry. Monitors manufactured, installed, and maintained by ADS measure over 19 billion liters of flow daily across the globe. For over 43 years ADS has delivered value to its customers by providing industry-leading solutions for flow monitoring, level monitoring, rainfall monitoring, data analysis, reporting, and field services. These customers rely on [Underground Intelligence](#)® from ADS to manage planning and rehabilitation, satellite community billing, regulatory compliance, O&M, and model calibration. ADS LLC is a business unit of IDEX Corporation.

Contact ADS for more information about wastewater flow monitoring, sewer level monitoring, rainfall monitoring, and data management. Call 800.633.7246 or visit www.adsenv.com.
